

## **Hole #9 Drop Zone Rule**

This seems to be much less of an issue, but it does occur from time to time. There is a drop zone on hole #9 with a FREE DROP if you go over the green and the cart path near the clubhouse that can be used under the following conditions:

- A. you MUST find your ball, otherwise it is a lost ball and must be played accordingly
- B. your ball is NOT in the parking lot, the parking lot is OB. Any area where cars drive is considered the parking lot.
- C. You must get your playing partners concurrence as to what you are doing before taking relief.

This is a pretty generous drop allowance. If you are in the lawn in front of the clubhouse, on the dining patio, or in any of the plantings you are allowed a free drop in the drop zone.

The #9 drop zone is located near where the #9 cart path intersects the larger path that connects to the parking lot and runs around the clubhouse.
